

Hobbes

1. What is the state of nature? What might humans look like without a governing body?
2. Are humans naturally good or bad?

Marx

What pushes a society forward?

Marxism is a method of socioeconomic analysis that analyzes class relations and societal conflict using a materialist interpretation of historical development and a dialectical view of social transformation. It originates from the mid-to-late 19th century works of German philosophers Karl Marx and Friedrich Engels.

Socialism - a political and economic theory of social organization that advocates that the means of production, distribution, and exchange should be owned or regulated by the community as a whole.

Communism - a political theory derived from Karl Marx, advocating class war and leading to a society in which all property is publicly owned and each person works and is paid according to their abilities and needs.

Capitalism - an economic and political system in which a country's trade and industry are controlled by private owners for profit, rather than by the state.

Marxism is closest to communism - but is better as an anti-lens against capitalism.

Capitalism works off supply and demand.

Commodification of goods and services

What is commodification?

Branding?

Leads to exploitation

Alienation from labor

Alienation from materials

Alienation from privacy

How does religion come into all of this?

Music?
